MEETING DATE: May 3, 2017

SUBJECT: Amend Municipal Code Chapter 15.16.045 - Sidewalk Seating and Sidewalk Dining (barriers)

CEQA: Draft ordinance involves no expansion of use, and thus qualifies for an exemption from the California Environmental Quality Act under Class 1, as set forth in section 15301 of the CEQA Guidelines.

RECOMMENDATION

1. Hold first reading and Amend Municipal Code Chapter 15.16.045 - Sidewalk Seating and Sidewalk Dining (Barriers);
2. Direct that publication of the ordinance will be satisfied by publication of a summary approved by the City Attorney.

DISCUSSION

In February of 2016, the City Council considered and adopted a substantive rewrite of the ordinance pertaining to outdoor seating adjacent to eating establishments. For the past year, the Department has received comments relating to the black wrought iron barrier fences used by the various restaurants serving alcohol. Comments suggested that a “lighter touch” be used to delineate the outdoor space where alcohol can be served. The Department concluded that because the seating was “behind bars,” the seating did not appear to be used by the general public. This was a key part of allowing sidewalk dining to occur on our public sidewalks.

City staff agrees that the black wrought iron fences in front of restaurants serving alcohol on the public sidewalk is unattractive and bothersome to passing pedestrians. In addition, City staff believes the basic wrought iron “look” is cheap and does nothing to promote placemaking in the downtown area.

City staff queried the staff at the Alcohol Board of Control about the use of a painted line on the sidewalk to delineate the appropriate serving area. This idea came from the City Manager who had first-hand knowledge of this very issue in Avalon on Catalina Island. Much to our surprise a painted line is an acceptable delineation for our local Alcohol Board of Control.

Practically speaking, City staff does not want to see various paint colors, line widths and paint splatter on our sidewalks. While some restaurateurs may be excellent painters, staff believes a

city paid contractor should be engaged to install the lines per the Code. This will assure the City of a high quality, durable paint surface on our sidewalks. It will also assure compliance with the City's size and space regulations.

Staff debated the color and line width. After considering the various factors the staff came to a logical conclusion. The line should be noticeable but not distracting. Therefore, staff recommends a six inch wide line painted the same soft green color that is used on the trim of City Hall. The paint type will be selected in concert with the contractor who will apply it to the concrete surface.

FISCAL IMPACT

There will be no fiscal impact to the City, as costs incurred for painting and/or removing existing delineations will be the responsibility of the applicant.
