6. OLD BUSINESS

A. Bruce discussed his presentation to the city council regarding his finding and GLAC suggestion to the council to act on moving forward on securing the lease from the railroad.

B. Reviewed & discussed the written document/Tree proposal from Cosmo Boa. Cosmo had the floor to review his thought on his proposal. The commission deferred to request that Lance review w/CourseCo Cosmo's proposal & to obtain their input in relation to their tree planting plans.

C. Discussed what is a reasonable amount of rounds that should be played yearly. What is CourseCo's rounds per year goal and philosophy? This information would be more for a "like to know" vs. dictating a strategy.

D. Discussed what our roll should be as a commission. Consensus was to focus on course conditions, service levels, capital improvements, & marketing.

NEW BUSINESS

- A. Terry Rae requested we obtain from CourseCo what is their strategy on increasing rounds of play.
- B. Discussed what would be CoursCo's game plan regarding the range improvements. As we know at this time, there is a proposed installation of new ball dispensing machine to allow purchase of balls at the range vs. purchasing a token at the golf shop. Any additional capital improvements for the range under consideration?
- C. Discussed the condition of the sand traps and if CourseCo had immediate plans for improvement.
- D. A "Thank You Note" was discussed to be sent to the departing Golf Pro, Joe Riekena. A draft is to be presented at the next meeting.
- E. Discussed the overall condition of the course was perceived by the committee to be in a "good" status.
- F. Requested clarification from CourseCo regarding what the term "Frequency Rounds" means as listed on the financials.
