

City of Pacific Grove

Gull Abatement Program

Presentation Outline

- 2017 Program Review
- 2018 Program
- Messaging
- Geographic Area of Focus

2017 Program Review

- Less **guano** noticed, site and smell
- Fewer fielded calls of chicks out of nests
 - Animal Control
 - SPCA
- Fewer “greys” observed
- Building owner and business participation in nesting material removal

Overview of 2018 Program

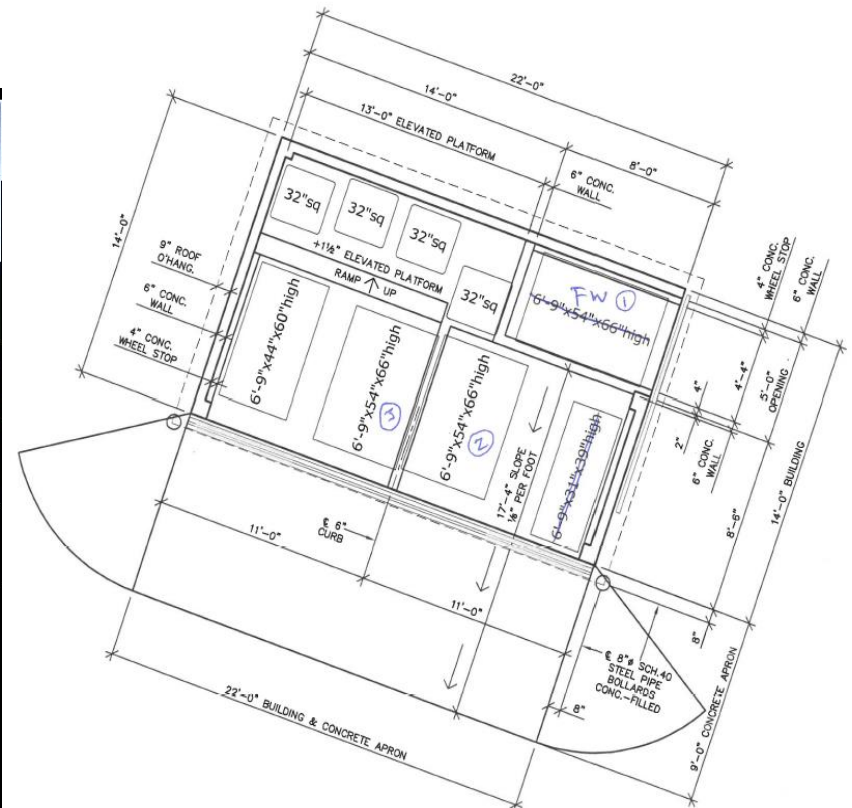

- **Falconry**
- **Removal of Nesting Material**
- **Kites**
- **Unnatural Food Source Control**

Trash Enclosures

Unnatural Food Source Control

- Improved trash enclosures reduce animal access
- Improved look and function of City services.

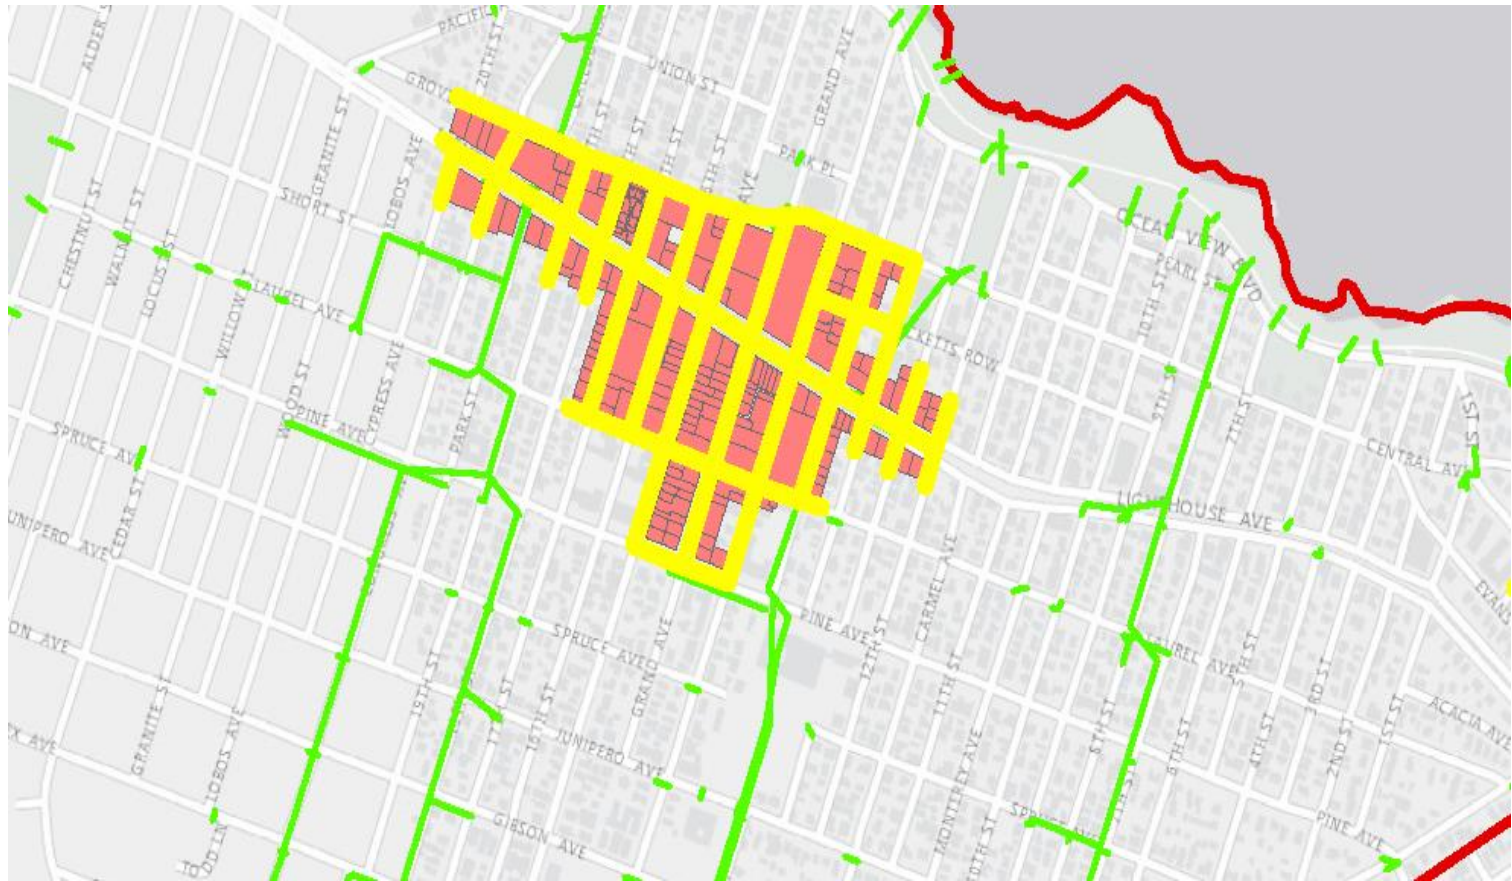

When, Why, and How

- Carefully selected period end of April and May
- To protect and preserve natural resources, improve visitor experience, and community livability
- Via a proven and successful mix of City resources, property owner, tenant, and citizen assistance. Food source removal, nest abatement, and falconry
