

Small Business Development Center

Thank you for participating in Monterey County Business Council and the Cal Coastal Small Business Development Center's webinar "[Reopening Your Business: The Plans for Monterey County.](#)"

After the 5/15 webinar, we received several questions about where to send your reopening plan. You do not need to send your reopening plan to anyone, unless the entity that licenses your business has required it. The state industry resource guides are intended to help you prepare to reopen your business in a way that protects your customers and employees and limits the virus spread.

Below you will find the links for industry checklists for reopening:
