

How does my Delta Dental PPOSM plan work?

We'll do whatever it takes and then some.

With the Delta Dental PPO plan, you have three options for choosing a dentist.

1. For the lowest out-of-pocket solution, visit a PPO network dentist. PPO dentists are Delta Dental dentists who have agreed to charge discounted fees.
2. You can visit a non-PPO Delta Dental dentist. You'll have higher out-of-pocket costs but still enjoy user-friendly claims administration, cost protections and other benefits.
3. You can select any licensed dentist, even one who is not a PPO or Delta Dental dentist. With this option, you will likely have higher out-of-pocket costs and be responsible for submitting the claim form.
