Agenda Item	Information Provided/Corrected
8A	Additionally, California Coastal Commission mapping staff recently clarified the coastal zone boundary does not include the former Asilomar Station portion of the spur on the northeastern corner of Crocker Ave. and Sinex Ave. that is approximately 50 ft wide. Staff recommends correcting the boundary to <u>align with the 50 foot wide boundary separating the former Asilomar Station grounds and the railroad spur</u> <i>run along the western edge of the Pacific Ave right-of-way</i> in compliance with the official coastal zone boundary as confirmed by Coastal Commission staff.
