RFP Overview

I. General Information

The City of Pacific Grove is a Charter City known for small-town hospitality and friendliness. It is run by a council-manager form of government. The major operating departments of the City are: City Manager, Administrative Services, Community Development, Public Works, Police, Fire, Recreation and the Library. The City population is 15,698 and it is approximately 2.86 square miles. The City shares borders with the City of Monterey, the Pacific Ocean, and the Del Monte Forest.

The City’s Building Services fees are comprised of fees based on cost-recovery, as well fees based on valuation tables. In Fiscal Year 17/18, 2017 the City of Pacific Grove worked with a consultant to complete a Cost Allocation Plan and User Fee Study. As part of this study, the Building Services Fees were only evaluated for overhead. This was primarily related to contracting with another City for building services, which provided compensation based on a percentage of the building-related fees. In Fiscal Year 19/20, the City discontinued this contract; and entered into an agreement with a private sector consulting firm.

Based on this transition, the City of Pacific Grove is requesting for proposal is to identify and select a vendor with a proven record of accomplishment in conducting Building Services and Valuation Fee Studies. This Request for Proposal (RFP) describes the general rules for preparing and submitting proposals and the City’s requirements for the Building Services and Valuation Fee Study. The Building Services function is currently part of the City’s Community Development Department.

II. Scope of Services

Project tasks shall include, but are not necessarily limited to, the following. If the consultant feels that additional tasks are warranted, they must be clearly identified in the consultant’s proposal.

1. Work and meet with City staff to refine the project scope, purpose, uses and goals of the City’s Building Valuation Fees to ensure that the study will be both accurate and appropriate to the City’s needs. The City wishes to continue using a valuation based model to recover costs, along with individual fees for specific activities that wouldn’t be appropriate based on a valuation method. Consideration will be given to other approaches or methods that would best benefit the City and residents. Review project schedule and answer any questions pertaining to the successful development of the Study.

2. Conduct a comprehensive review of the City’s existing Building Services fees. For a list of current City Building and Permitting fees, go to page 15 of the City of Pacific Grove Fee Schedule, which is adopted annually and is effective July 1. Identify the total cost of providing each City service and in a manner that is consistent with all applicable laws, statutes, rules and regulations governing the collection of fees, rates and charges by public entities.

3. Compare service costs with existing recovery levels. This should include any service areas where the City is currently charging for services as well as areas where the City,
perhaps, should charge in light of the City’s practices, or the practices of similar or neighboring cities. Include (as allowed by statutes/laws/rules/regulations) practices for deferral and/or forgiveness of fees and or/or substitution of public services/facilities in lieu of fees for privately funded and City projects with public benefit. Include a comparison of current City practices and similar practices of similar or neighboring cities.

4. Recommend appropriate fees and charges based on your analysis together with the appropriate subsidy percentage for those fees where full cost recovery may be unrealistic. Consider the cost of pre-application and post-application meetings to mitigate project problems, assist project proponents to prepare the application, emergency response cost recovery such as inspection costs after fires and/or acts of god and how those costs can be recovered, either on a permit specific basis or as an overall percentage applied to permit fees.

5. Prepare a report that identifies each service, its full cost, recommended and current cost recovery levels. The report should also identify the direct cost, the indirect cost, and the overhead cost for each service; and provide a model for adjusting these fees for the City’s current and future needs, when relevant.

6. Prepare a report that identifies the present scope performed under the fee, the proposed scope performed under the recommended fee, present fees, recommended fees, percentage change, cost recovery percentage, revenue impact and fee comparison with other Monterey County cities or other California cities that are comparable to Pacific Grove. A survey comparison of fees with similar cities is for information only.

7. Report on other matters that come to your attention in the course of your evaluation that in your professional opinion the City should consider.

8. Present your study to the City’s management group and make necessary adjustments as requested.

9. Assist the Administrative Services Department in presenting the plan to the City Council.

10. Provide the City with an electronic copy of the final comprehensive study, including related schedules and cost documentation in a format that can be edited and updated by City staff to accommodate changes in the organization or changes in costs. Develop a model for adjusting fees to include the addition of future service enhancements, and the ability to calculate the estimated costs of providing the service under consideration (Scenario and “what if” analyses).

11. Provide on-site training to enable staff to update any fees that are not subject to valuation tables on an annual basis.

12. Prepare a final fee study report in a single PDF file of the plan that can be made available to City staff. Any Master Fee Schedule revisions developed shall be made available to the City electronically, providing the ability to add or delete and/or update information as needed.
13. Consult with City staff should it become necessary to defend the City’s User Fees as a result of any legal or other challenge.
